## 1 SERVICES

The Primary Care Network serves a population not previously eligible for Medicaid. The Scope of Service is limited to basic medical service of a general nature to provide preventive and palliative care in an outpatient, office setting. Services in the office should comport with the definition of Primary Care found in Utah Administrative Code R414-1002(3).

### Verification

Qualified persons receive a yellow Primary Care Network Identification card.

### 1 - 1 Authority

The Primary Care Network is authorized by a waiver of federal Medicaid requirements approved by the federal Centers for Medicare and Medicaid Services and allowed under 42 CFR 4.35.1115, 2000-edition. This rule is authorized by Title 26, Chapter 18, Utah Code Annotated.

### 1 - 2 Definitions

1. "Client" means a person the Division or its duly constituted agent has determined to be eligible for assistance under the Medicaid program.
2. "CLIA" means the Clinical Laboratory Improvement Amendments of 1988.
3. "CMS" means the Centers for Medicare and Medicaid Services.
4. "Code of Federal Regulation" (CFR) means the publication by the Office of the Federal Register, specifically titled 42, used to govern the administration of the Medicaid program.
5. "Division" means the Division of Medicaid and Health Financing within the Department of Health.
6. "Emergency" means the sudden onset of a medical condition, traumatic injury or illness manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could reasonably be expected to result in:
  - a) placing the client's health in serious jeopardy;
  - b) serious impairment of bodily functions;
  - c) serious dysfunction of any bodily organ or part; or
  - d) death.
7. "Emergency Department Service" means service provided in a designated acute care general hospital emergency department.
8. "Emergency Service" means:
  - a) Attention provided within 24 hours of the onset of symptoms or within 24 hours of making a diagnosis;
  - b) A condition that requires acute care, and is not chronic;
  - c) It is reimbursed only until the condition is stabilized sufficient that the patient can leave the hospital emergency department; and
  - d) It is not related to an organ transplant procedure.
9. "Outpatient" means a client who is not admitted to a facility, but receives services in a private office or clinic.
10. "Outpatient setting" means the physician's office.

11. “Primary Care” means services to diagnose and treat illness and injury as well as preventive health care services. Primary care promotes early identification and treatment of health problems, which can help to reduce unnecessary complications of illness or injury and maintain or improve overall health status.
12. “Primary Care Provider System” means those services provided directly by the physician or by his staff, under his supervision in the office.
13. “Provider” means any person, individual, corporation, institution or organization, qualified to perform services available under the Medicaid program and who has entered into a written contract with the Medicaid program.

### 1 - 3 Billing Clients

Effective July 1, 2002, providers who serve Primary Care Network patients may bill patients for non-covered services set forth in the Primary Care Network Manuals, Primary Care Network Information Bulletins, and letters to providers. A written agreement upon time of service is recommended, but not required.

## 2 SCOPE OF SERVICE

### 2 - 1 Physician Services

Physician services provide for the basic medical needs of eligible individuals and must be provided within the parameters of accepted medical practice. Physician services may be provided directly by the physician or by other professionals – licensed certified nurse practitioners, or physician assistants, authorized to serve the health care needs of the practice population through an approved scope of service under the physician’s supervision.

Providers of Primary care service are limited to those physicians who are prepared in:

Family Practice,  
General Practice,  
Internal Medicine,  
Obstetrics and Gynecology, and  
Pediatrics.

In addition, providers of physician services in Federally Qualified Health Centers, Rural Health Clinics, Local Health Department clinics, and Health Clinics of Utah can provide service based on the Scope of Service and codes developed for the Primary Care Network program.

Physician services include those that can be performed in an outpatient setting.

1. The CPT Manual is the standard for defining and coding physician services. Under the provisions of this plan, not all procedures are acceptable, e.g., experimental, cosmetic, or those not reasonable, medically necessary or cost effective. Nonspecific or unlisted codes require physician review because of the potential for use to cover otherwise non-covered services.
2. The Approved Medical and Surgical Procedures for the Primary Care Network with Pertinent Criteria (“PCN - CPT Code List”) is implemented into this program. This list serves as a guide as well as a safeguard to inappropriate utilization. The list outlines those procedures which are

excluded because they are experimental, ineffective, cosmetic, or not reasonable and medically necessary. (List attached.)

3. The CPT office visit, Evaluation and Management codes (99201 - 99215) for either new or established patients are appropriate for the office services claims under this plan.
4. In general, both office visit and service codes will not pay for same dates of service.
  - a) Modifier 25 Providers are advised to place the modifier 25 on evaluation and management codes only when procedures performed may include the evaluation and management service. A delay in payment is occurring when the modifier 25 is placed on claims which would automatically pay. For example, placing the modifier 25 on preventive evaluation and management codes 99385, 99386, 99395 and 99396 means that the claim is suspended for review. The modifier 25 should not be placed on the E&M service when codes for vaccines, administration, and a blood drawing fee are the only other codes on the claim. The administration fee, vaccine fee, and E&M service will automatically pay without the modifier.
  - b) Therapeutic procedures An evaluation and management code and a diagnostic procedure or therapeutic procedure code will generally not be covered separately on the same date of service. This includes service in the Emergency Room and outpatient service.
  - c) Incidental procedures The new version of the editing program containing additional Correct Coding Initiative (CCI) edits will be brought on line in January 2006. Incidental edits occur when a procedure is considered an integral component of another procedure.
5. Licensed certified family or pediatric nurse practitioners are limited, under this Medicaid Scope of Practice, to a cooperative, ambulatory, office type, working relationship with a physician. When employed by the physician, the physician bills for the service.
6. Physician assistants work under the supervision of a physician to provide service to patients within the practice population.
7. Physicians providing service in the Emergency Department will use CPT Codes 99281 - 99285 to bill for services.

## 2 - 2 Limitations for Physician Services

1. The CPT Manual is the standard for defining and coding physician services. However, not all procedures are covered under this plan, e.g., experimental, ineffective, cosmetic, or those not cost effective, reasonable or medically necessary.
2. Use of nonspecific or unlisted codes to cover procedures not otherwise listed in the CPT Manual require Medicaid physician consultant review and approval because of the potential for use to cover otherwise non-covered services.
3. Services are limited to those included in the "PCN - CPT Code List" with criteria.
4. Evaluation/Management office visit codes (CPT) for new and a (99201 - 99215) must be used appropriately on claims for service.
5. Office visit codes (E/M) and service codes (10060 - 69990) will not be paid on the same date of service.
6. Services identified by the 90000 series of codes are specialty medical services and will be limited only to those that can be safely provided in the physician's office.
7. After-hours office visit codes cannot be used in a hospital setting, including emergency department, by private or staff physicians. They cannot be used for standby for surgery, delivery, or other similar circumstances, and they cannot be used when seeing a new patient. Billing for after-hours

service in an established patient requires the service be provided outside of scheduled staffed hours. For more details see the Medicaid manual.

8. Cognitive services are limited to one service per day by the same provider.
9. Modifier 25 will not be recognized as a stand-alone entity to override the one service per day limitation.
10. Laboratory services provided by a physician in the office are limited to the approved kits, waived tests or those laboratory tests identified by CMS for which an individual physician is CLIA certified to provide and listed in the "PCN -CPT Code List."
11. Unspecified laboratory codes will no longer be accepted when there is a specific test available. The specific test must be ordered to receive reimbursement. For example: The code 87660–*Trichomonas vaginalis*, direct probe, must be used; the code 87797–Infectious agent not otherwise specified; direct probe technique will no longer be accepted when the test completed is *Trichomonas vaginalis*, direct probe. This also applies to the Affirm Test. The code 87800–Infectious agent detection, direct probe technique will no longer be accepted when the test is *Chlamydia trachomatis*, direct probe. The code 87490–*Chlamydia trachomatis*, direct probe must be used.
12. A specimen collection fee is limited only to venipuncture specimens drawn under the supervision of a physician to be sent outside of the office for processing. Any blood test obtained by heel or finger stick will post a mutually exclusive edit with 36415 –venipuncture. The following codes have been added as mutually exclusive to 36415: 82948–blood glucose, reagent strip, 85013–spun hematocrit, 85014–hematocrit, 85610–Prothrombin time, 83036–glycated hemoglobin, and 86318 – immunoassay for infectious agent by reagent strip when submitted with the modifier QW.
13. Genetic counseling and genetic testing: Genetic testing is not a covered service. Molecular diagnostic testing is covered only for infectious disease evaluation and management. Testing beyond 2 units of a molecular diagnostic code requires review and prior authorization through the program
14. Over-the-counter drugs and medications are limited to those on the list of covered OTC drugs established for this plan. Refer to Chapter 2 - 6, Pharmacy Services, or the PCN Manual (Attachment Section).
15. Vitamins are limited to coverage for pregnant women.
16. Drugs and biologicals are limited to those approved by the Food and Drug Administration or the local Drug Utilization Review Board which has the authority to approve off label use of drugs. The pneumovax vaccine must be separated by more than five years. When given sooner than five years, there are adverse reactions which may occur from this vaccine. For updates on adult vaccination visit the Centers for Disease Control and Prevention web site at <http://www.cdc.gov/nip/recs/adult-schedule.pdf>
17. Additional payment for services is limited to those cases where the circumstances are so unusual and severe that excess time is required to safely monitor and treat the patient. Documentation in the medical record must clearly show the extenuating circumstances and the unusual time commitment to warrant medical review and consideration for additional reimbursement.
18. Medical and Surgical Procedures identified by CPT code may only be provided by the physician or osteopath. Procedures may not be completed by ancillary personnel including nurse practitioners and physician assistants.

19. Medical services provided by ophthalmologists or optometrists are limited to codes 92002, 92004, 92012, 92014, 92020, 92083, 92135, 99201- 99205, 99211-99215, S0620, and S0621.
20. In order to comply with provisions of the Deficit Reduction Act of 2006, section 6002, billings for medications administered in the physician's office must include the national drug code (NDC) from the container from which the medication is obtained, and the number of units administered, in addition to the "J" Code normally used. Billings for all drugs administered in the physician's office without the NDC information will be denied for payment beginning with the reporting deadline of January 1, 2007, specified in the DRA for single source drugs.

## 2 - 3 Hospital Services

The Primary Care Network **does not cover** inpatient hospital services. Laboratory and radiology services are covered as long as the services performed are on the Approved Medical & Surgical Procedures List for the Primary Care Plan "PCN-CPT Codes List".

Revenue Codes and ICD.9.CM diagnosis codes are the main means of documentation for these services. Revenue Codes appropriate to be covered for emergency service are:

Emergency Room	450, 458, 459
Laboratory	300, 302, 305, 306, 309, 925, 929
Radiology	320, 324, 329
EKG/ECG	730, 739
Respiratory Therapy Services	410
Inhalation Therapy	412, 419
Cast Room	700, 709
Pharmacy (medications used in ED)	250, 260, 269
IV Solutions	258
Med-Surg Supplies (use in ED only)	270

All other revenue codes are non-covered.

Emergency services in a designated acute care general hospital emergency department are covered.

In addition, the current PCN Authorized Diagnoses for Emergency Department Reimbursement list is incorporated as approved emergency department care. Emergency room services (including laboratory and radiology) that are billed with any diagnosis code other than one of those listed would be a non-covered service resulting in no payment being made. If the determination is made that the visit is not for a bonafide emergency, and no service is provided, revenue code 458 (Triage fee) may be billed and a nominal payment may be made to the hospital for the evaluation and determination. The diagnoses in the PCN Authorized Diagnoses for Emergency Department Reimbursement list are ICD.9.CM codes. The list is found as an attachment to the PCN manual.

Physicians providing service in the emergency department must use CPT codes 99281-99285 to bill for services.

## 2 - 4 Minor Surgery and Anesthesia in an Outpatient Setting

For the purposes of this program, outpatient setting means only in the physician's office. Only those procedures that can be safely provided in the physician's office can be covered.

## 2 - 5 Laboratory and Radiology Services

Professional and technical laboratory and radiology services are furnished by certified providers with use of the 70000 and 80000 series of codes.

1. For this program, laboratory and radiology procedures will be limited to those which are on the Approved Medical & Surgical Procedures List for the Primary Care Plan "PCN-CPT Codes List".
2. Laboratory services are limited under federal CLIA regulations. All laboratory testing sites providing services must have either a Clinical Laboratory Improvement Amendments (CLIA) certificate of waiver or a certificate of registration along with a CLIA identification number. Only laboratories CLIA certified can complete certain tests and receive payment. (PCN CLIA List attached.)
3. Some laboratory and radiology procedures are non-covered because they relate to otherwise non-covered services. The "PCN -CPT Code List" indicates covered service.
4. CPT code 80074, acute hepatitis panel, includes four other codes: 86709, 86705, 87340, and 86803. When three of the four codes are billed, they will be rebundled into the acute hepatitis panel code 80074 for payment.
5. Digital mammography add-on code 77051 and code 77052 are covered strictly for coding purposes. The CPT manual instructs the provider to submit the add-on code 77051 or 77052 with the code for standard mammography, and codes 77055, 77056, or 77057 to indicate digital mammography was completed. The provider may complete standard or digital mammography. However, PCN will continue to pay the reimbursement rate for standard mammography.
6. Allergen Immunotherapy Testing: The code 86003–AllergenspecificIgEwillrequire submission of medical record documentation to support medical necessity of IgE testing. This service should not be a screening method for allergy. Skin patch testing is the standard of care. Providers billing with code 86003 must include documentation of the history of the suspected allergy, duration, severity, results of other allergy tests, and previous treatment of the disorder and an attachment to support the medical necessity of the IgE testing including at least one of the following:
  - Direct skin testing is impossible due to infancy, extensive dermatitis or the patient has marked dermatographism.
  - Patient is unable to discontinue medication (i.e. tricyclic antidepressant, prednisone, or beta blocker, antihistamine) that interferes with skin testing.
  - Direct skin testing is negative despite clinical indications of an allergic condition and specific IgE tests have been determined.

The testing will be reimbursed only for testing of suspected allergens. Use as a multiple allergy screening tool is not covered. An initial allergy screen is twelve tests. Coverage will be limited to one panel with a unit limit of 12 tests. If all tests are negative, an additional testing beyond the initial 12 tests is not considered medically necessary.

7. CPT code 87621, Infectious agent detection by nucleic acid; papilloma virus, human, amplified probe technique, is limited to one payment per service. This edit follows the American Society of Microbiology guidelines.
8. Laboratory and radiology services done in the emergency room that are billed with any diagnosis code other than one of those listed on the current PCN Authorized Diagnoses for Emergency Department Reimbursement list are a non-covered service which will result in no payment being made.

## **2 - 6 Pharmacy Services (Updated 10/1/11)**

The Medicaid Pharmacy Policy as set forth in the Utah Provider Manual for Pharmacy Services is hereby adopted for the Primary Care group of clients with the following changes. Coverage is more restrictive for units and time.

Pharmacy services include prescribed drugs and preparations provided by a licensed pharmacy. The fact that a provider may prescribe, order, or approve a prescription drug, service, or supply does not make it an eligible benefit, even though it is not specifically listed as an exclusion. The following pharmacy benefits and restrictions are incorporated into this program.

1. Drug Limitations and Benefits
  - A. This program is limited to four prescriptions per month, per client with no overrides or exceptions in the number of prescriptions.
  - B. OTC prescriptions count against the 4RX/month limit.
  - C. A patient paid prescription is not counted as one of the four prescriptions per month.
  - D. The copay is product dependent:
    - (1) \$5.00 copay for any generic product or brand name product on the Preferred Drug List.
    - (2) \$5.00 copay for OTC products.
    - (3) 25% of the Medicaid payment for any name brand drug not on the preferred list where a generic product is NOT available.
  - E. When a generic product is available and the name brand is requested, the total payment must be made by the client. No physician DAW or Prior Authorization is available.
  - F. Prior approval and the criteria governing such are the same as the regular Medicaid program.
  - G. Generic drugs with an A B rating are mandated for dispensing.
  - H. Name brand drugs where generics are available will require full payment by the client. No physician DAW is available.
  - I. Over-the-counter products. The extent of these products is more limited than regular Medicaid. Products covered are: Insulin 10cc vials; Insulin syringes; glucose blood test strips; lancets; contraceptive creams, foams, tablets, sponges, and condoms. Insulin pens are not a covered benefit.
  - J. OTC products that are covered require a written prescription just like legend drugs in order for the pharmacy to fill them.
  - K. PCN clients may receive brand name Tegretol, Dilantin, and Coumadin without prior authorization due to the narrow therapeutic index of these drugs. If one of these products is selected for dispensing, the 25% brand name co-pay requirement will apply.

2. Exclusions and Restrictions

- A. No duplicate prescription will be paid by Medicaid for lost, stolen, spilled or otherwise non usable medications.
- B. No injectable products are available for payment by Medicaid, except for 10 ml vials of insulin and medroxyprogesterone acetate 150mg when used for family planning.
- C. Compounded prescriptions are not covered.
- D. Drugs are covered for labeled indications only.
- E. Rapidly dissolving tablets, lozenges, suckers, pellets, patches, or other unique formulations or delivery methodologies are NOT available, except where the specific medication is unavailable in any other form. Lower-cost generic alternatives may be reviewed for exception to this policy. Patches are NOT reimbursable.
- F. Cosmetics, weight gain or loss products are not covered.
- G. No vitamins or minerals are covered, except for prenatal vitamins for pregnant women.
- H. Drugs for Erectile Dysfunction are not covered.

3. Cumulative Monthly Amounts

Cumulative monthly amounts for certain drugs are outlined in the *Drug Criteria and Limits* attachment included with this manual.

There are no “grace” periods to obtain these drugs early. They are available only at 30-day intervals. For long-acting narcotic analgesics and for short-acting single agent narcotic analgesics with a cancer diagnosis, the correct ICD.9 code waives the limits.

4. Drugs Requiring Prior Approval: Drugs on the current *PCN Drug Criteria and Limits* list require prior approval. List attached.

**2 - 7 Durable Medical Equipment and Supplies**

Equipment and appliances are necessary to assist the patient’s medical recovery, including both durable and nondurable medical supplies and equipment. However, the Primary Care Network waiver notes that “The fact that a provider may prescribe, order, recommend, or approve a service or supply does not, of itself, make it an eligible benefit, even though it is not specifically listed as an exclusion.”

The following codes represent covered equipment and supplies under this plan:

A4259; A4565; A4490 -A4510; A4253; E0114; E0135 LL; A4570; A4614; E1390RR; K0001 LL; L0120; S8490.

**2 - 8 Preventive Services and Health Education**

The Primary Care Network includes preventive screening services, including routine physical examinations and immunizations, and educational methods and materials for promoting wellness, disease prevention and management.

Effective July 1, 2005, one comprehensive preventive health examination is covered per calendar year. The initial code 99385 or 99386 may be billed once for an annual examination, in subsequent years code 99395 or 99396 should be billed.

These services are assumed under the general Evaluation and Management care provided to patients by the physician during medical visits. The services include counseling, anticipatory guidance, and/or risk factor reduction interventions. Except for immunization codes, no special programs or codes are covered. The intent is that these services be billed under the general evaluation and management codes and a co-pay should be collected.

**Diabetes:** Effective January 1, 2004 using code S9455 – Diabetes Self-Management Training Program will be available for use by authorized diabetes self-management providers. Patient preauthorization is required to receive diabetes self-management training.

Patient Preauthorization:

A newly diagnosed patient with Type I, Type II, or gestational diabetes or a patient previously diagnosed with Type I or Type II diabetes, is eligible to receive diabetes self-management training through Medicaid when:

- The physician provides a referral for the patient who has never had a diabetes self-management training course.
- The course is limited to ten sessions.
- The patient completed the diabetes training at least 12 months ago, and the physician refers the patient for a specified number of refresher diabetes training sessions because:
  - The patient has progressed in diabetes illness to require further management training or the patient has indications they are noncompliant with treatment.
  - Patient has complications of diabetes requiring two or more visits to the emergency room during the last six months or a hospital admission related to diabetes within the last year.

At preauthorization the following patient information should be provided:

- Patient is informed of the importance of completing the series of classes and agrees to sign a contract agreement to make every attempt to follow through with education sessions.
- The patient is informed that if they do not complete the classes there is a one year waiting period before further classes will be authorized.
- Authorized Providers:
- Diabetes self-management training must be provided through a state or nationally recognized program.
  - As required by CMS, the Diabetes Self-Management Program must be taught by a state licensed RN, certified dietician, and registered pharmacist. At least two of the three provider types are required to apply to Medicaid as a Diabetes Self-Management program and obtain a provider group practice number. Providers who may become recognized for reimbursement include an ADA certified diabetes educator (CDE) or a Utah State Department of Health certified instructor

- A Utah State Department of Health certified instructor must have completed a minimum of 24 hours of recent approved diabetes specific continuing education which covers the ADA 15 core curriculum content areas. At least 6 hours of diabetic specific continuing education must be completed each year following the completion of the initial 24 hours by each instructor or certified diabetes educator in the program.
- Each instructor (RN, pharmacist, or dietician) must be qualified to teach all of the 15 core content areas.

**Immunizations:**

90470 - 90473

Administration fee

**Covered Immunization Agents:**

90740

Hepatitis B vaccine for immune compromised adult or adult dialysis patient

90746

Hepatitis B adult

90632

Hepatitis A adult

90636

Hepatitis A and Hepatitis B combination for adult

90658

Influenza virus vaccine, split virus, 3 yrs+, intramuscular

90718

Tetanus and diphtheria toxoids (Td) This should be main choice because of resurgence of diphtheria in Europe.

90703

Tetanus toxoid

90663

Influenza virus vaccine, Pandemic formula, H1N1

90675

Rabies IM for post exposure treatment

90707

MMR vaccine

90713

Poliovirus vaccine, inactivated, (IPV), subcutaneous or intramuscular

90714

Tetanus and diphtheria toxoids (Td) absorbed, preservative free, intramuscular

90715

Tetanus, diphtheria toxoids and acellular pertussis vaccine (Tdap), intramuscular

90716

Varicella for subcutaneous use for a varicella-exposed person who is not immune, but not for use in immunocompromised patient.

90732

Pneumococcal polysaccharide 23-valent vaccine adult or immunosuppressed patient

90665

Lyme disease only if known exposure.

Note: The initial pneumovax vaccination is sufficient for most people. For those patients with rare conditions which require revaccination, only one additional vaccination for pneumovax is recommended. It must be given at least 5 years from the initial vaccination to prevent adverse reactions. PCN pays for one influenza vaccination annually. The National Immunization Program at Centers for Disease Control and Prevention states that an additional influenza vaccination is not

recommended. For updates on current adult vaccination recommendations and issues visit the CDC web site at <http://www.cdc.gov/nip/recs/adult-schedule.pdf>

## 2 - 9 Family Planning Services

This service includes disseminating information, treatment, medications, supplies, devices, and related counseling in family planning methods to prevent or delay pregnancy. All services must be provided or authorized by a physician, or nurse practitioner and must be provided in concert with Utah law. Refer to

## 2 - 10 Vision Care

Services provided by licensed ophthalmologists or licensed optometrists, within their scope of practice. Covered services are limited to:

1. Examinations and refractions. No glasses will be covered.
2. One exam every 12 months.

The following codes are covered: 92002, 92004, 92012, 92014, S0620, and S0621. The examination fee includes the refraction (glasses prescription).

## 2 - 11 Dental Services

Services include relief of pain and infection for dental emergencies limited to an emergency examination, an emergency x-ray, and emergency extraction when the service is provided by a dentist in the office.

Only the following dental codes are covered:

D0120	Periodic exam - 2 per year, no sooner than 6 months apart
D0140	Limited exam, focused problem (emergency examination)
D0150	Comprehensive oral exam, one per provider
D0210	Intra oral complete series - including bitewings, total of 8 or more films
D0220	Periapical x-ray 1 film
D0230	Periapical x-ray additional film
D0270	Bitewing single
D0272	Bitewing 2 films
D0274	Bitewing 4 films
D1110	Adult prophylaxis
D1204	Topical fluoride application (prophylaxis not included) - adult
D4355	Debridement for diagnosis - instead of prophylaxis, one per year
D2140	Amalgam 1 surface permanent
D2150	Amalgam 2 surface permanent
D2160	Amalgam 3 surface permanent
D2161	Amalgam 4+ surface permanent
D2330	Resin 1 surface anterior
D2331	Resin 2 surface anterior
D2332	Resin 3 surface anterior
D2335	Resin 4+ surface anterior
D7140	Extraction, erupted tooth or exposed root (elevation and/or forceps removal).

D7210                      Extraction surgical, document need to lay flap, section tooth

## 2 - 12 Transportation Services

Ambulance (ground and air) service for medical emergencies only.  
The following codes are covered.

A0422, A0425, A0429, A0430, A0431, A0435, A0436

## 2 - 13 Interpretive Services

Services **provided by entities under contract to Medicaid** to provide medical translation service for people with limited English proficiency and interpretive services for the deaf.

No specific codes are identified. When providers use the Medicaid authorized interpretive services, payment is made to the entity under terms of the signed contract. Medical providers may use their own interpreters. However, independent interpreters cannot bill nor be paid by Medicaid. If independent interpreters are used, payment remains the responsibility of the provider who secured their services.

## 2 - 14 Audiology Services

Audiology services are limited to one hearing test for hearing loss annually.  
V5010, assessment of hearing aid.  
Hearing aids are not a covered benefit.

## 3 Non-Covered Services under the Primary Care Network

1. Inpatient or outpatient hospital diagnostic, therapeutic, or surgical services, except for those in the emergency department or those very minor procedures which can be provided in the physician's office. Note: Observation codes 99217-99236 are not covered.
2. Procedures that are cosmetic, experimental, investigational, ineffective or not within the limits of accepted medical practice.
3. Health screenings or services to rule out familial diseases or conditions without manifest symptoms.
4. Routine drug screening.
5. Medical or psychological evaluations or testing for legal purposes such as paternity suits, custodial rights, or for insurance or employment examinations.
6. Non-emergency ambulance service through common or private aviation services.
7. Transportation service for the convenience of the patient or family.
8. Family planning services - Non-covered:
  - Implanon
  - Norplant: CPT procedure codes 11975, 11976, 11977
  - Infertility studies and reversal of sterilization ICD.9.CM Diagnosis Codes: Male - 606.0 - 606.96  
CPT Procedure Codes: 54240, 54250, 54900, 54901, 55200, 55300, 55400.  
ICD.9. CM Diagnosis Codes: Female - 256.0 - 256.9; 628.0 - 628.9

- CPT Procedure Codes: 58345, 58350, 58750, 58752, 58760, 58770
- Assisted Reproductive Technologies (ART's) (in-Vitro) ICD.9.CM diagnosis code: V26.1 and above infertility diagnosis codes. ICD.9.CM procedure codes: 66.1, 66.8, 69.92, 87.82, 87.83. CPT procedure codes are: 58321, 58322, 58323, 58970, 58974, 58976, 89250, 89251, 89253, 89254, 89255, 89257, 89258, 89259, 89260, 89261, 89264, 89321
- Genetic Counseling
- ICD.9.CM diagnosis code: V26.3, V65.40, V25.09
- CPT Procedure codes for cytogenetic studies: 88230 - 88299
- 9. Abortion
- 10. Sterilization
- 11. Weight loss programs
- 12. Office visit for allergy injections or other repetitive injections - Non-covered:
  - CPT procedure codes 95115 through 95134
  - CPT procedure codes 95144 through 95199
- 13. Vitamins - prescription or injection
- 14. Physical Therapy
- 15. Occupational Therapy
- 16. Massage Therapy - Non-covered:
  - CPT Procedure code 97124
- 17. Podiatric (podiatry) Services - Routine foot care
- 18. Stage Renal Disease (Dialysis)
- 19. Medical and surgical services of a dentist
- 20. Organ Transplant Services
- 21. Charges incurred as an organ or tissue donor
- 22. Home Health and Hospice Services This exclusion applies regardless of whether services are recommended by a provider and includes the following:

34. Pregnancy Related Services

A. Prenatal Services

59000	Amniocentesis; diagnostic	59001	Amniocentesis; therapeutic
59012	Cordocentesis	59015	Chorionic villus sampling
59020	Fetal stress test	59025	Fetal non-stress test
59030	Fetal scalp sampling	59050 - 59051	Fetal monitoring during labor
59100	Hysterotomy ( Reqs PA)	59120 - 59121	Ectopic pregnancy
59130	Abdominal pregnancy	59135 - 59136	Interstitial pregnancy
59140	Cervical pregnancy	59150 - 59151	Ectopic pregnancy (Laparoscopy)
59320 and 59325	Cerclage of cervix	59350	Hysterorrhaphy

B. Vaginal Delivery, Antepartum, and Postpartum care

59400	Global delivery	59409	Delivery only
59410	Delivery with postpartum care	59412	Version
59414	Delivery of placenta	59425 - 59426	Antepartum care only
59430	Postpartum care only	59300	Episiotomy
59160	Postpartum D&C		

C. Cesarean Delivery

59510, 59514, 59515, and 59525 hysterectomy following delivery (emergency)

D. Delivery after Previous C-section

59610, 59612, 59614, 59618, 59620, 59622

E. Abortions and Sterilizations

55250	22450	55530	55535	55540	55550	55600	55605	55650	58563	58600	58605
58611	58615	58661	58670	58671	59100	59840	59841	59850	59851	59870	59852

F. Other pregnancy related medical procedures

59866	Multi fetal pregnancy reduction	59870	Molar pregnancy
59871	Removal of cerclage suture	59898	Unlisted services/procedures
59899	Unlisted services/procedures		
76805 - 76828	Ultrasounds		

G. High Risk and Enhanced Services

H1000 and H1001 Risk Assessment

- H. High Risk Delivery(s)
  - 59400 (22 modifier) Global (vaginal)
  - 59510 (22 modifier) Global (C-section)
  - 59410 (22 modifier) Delivery and Postpartum care only
  - 59515 (22 modifier) C-section and Postpartum care only
  
- I. Enhanced Services - \*\*These are the services added under the “Baby Your Baby” Program and are non-covered in PCN.
  - T1017, H1004, S9446, S9470, H0046
  - Single Visits 99204-SB and 99212-SB
  
- J. Certified Nurse Midwife Services  
CNM services are not covered in PCN. Well-Woman Care and Contraceptive Management are only covered when provided by a participating primary care provider.
